

## **Black lemon**

**Oh black lemon, eyes as sweet as heaven  
she walks like an nun and looks so chaste  
all the kisses she spends leave an acid taste**

**There's strict lilly, graceful little filly  
turn the lights down in her cozy room  
she shows you how to ride on a witches broom**

**Oh grimy beech, she's always on the leave  
meet her in hall of a cheap hotel  
it's whiskey or water you never can tell**

**Oh tiny daisy, uninterested and lazy  
lying in bed with a pillow on the waist  
come a little closer and the pillow gets replaced**

**All you sweet women, we're all just hormone-driven  
I got a one-way ticket and my suitcase's packed  
there's no rest for the wicked I ain't gonna come back**
